

*Texas Unlimited Fun Flyers (TUFF)*

*AMA Club #4659*

*[www.tuffclub.net](http://www.tuffclub.net)*

**Who we are:** TUFF club members are an active group of people who love building and flying radio controlled aircraft. We fly all manner of aircraft from small electric planes and helicopters to giant scale gas planes. If you have an interest in this great hobby we invite you to join us. Beginners are always welcome and help is cheerfully offered at all times.

**Where we fly:** We have finalized an agreement with the city of Tyler to use the model field at Northside Park at Hiway 69 and Loop 323 on the North side of town behind Purvis Bearings. We also have access to a 25 ft by 500 ft paved runway in Van Texas.

**Cost:** FREE – Membership in TUFF is free to all modelers.

**AMA Membership:** AMA membership provides insurance protection for you, the club and the land owner should your plane cause injury or damage. Therefore AMA membership is required if you intend to use the Northside Park field and your plane weighs more than 2 lbs. Electric planes under 2 lbs are not required to join any club or organization to use the park. New modelers may be able to take advantage of introductory programs from the AMA that allow training without AMA membership. Visit *[www.modelaircraft.org](http://www.modelaircraft.org)* for information.

**How to join:** Contact Mr. Mark Humphries at 903-597-5002.

or

Complete this form and leave at Wings and Wheels Hobbies, Tyler Texas and they will forward it to the proper person.

*We need your help! We want TUFF to be a fun club, governed by all of it's members for the benefit of all who enjoy model aviation. Your input is crucial to our success, please join us.*

*Please provide your contact information so we can get you the latest news about TUFF.*
